SUSTAINABILITY REPORT 2026

Blue Lagoon Ocean

Innovative and continuously developing strategies drive good companies. However, in order to be a great company you must also have a set of core values that complete every decision the company makes.

Thoughtful development means we continue our commitment to care as we expand within Blue Lagoon Group. Our hotel supports long-term employment at every level, and our associates are endorsed so they can achieve their greatest potential. We enrich the local communities by stimulating local economies and encouraging the expansion of educational opportunities.

We also realize that environmental protection and community engagement is more than a vital importance; it also makes good business sense. Travelers care about companies that support broadly issues of worldwide significance. And protecting the environment means our hotel will continue to be desirable destination for future generations.

Fourlanos Michalis

Hotel Operations Manager

Blue Lagoon Ocean

31/08/2026 |

Reporting period:

01/09/2025–01/09/2026

Introduction to our Business

The Blue Lagoon Experience means attention to details so as to ensure that every stay is an effortless pleasure.

We consider the thing that defines who we are and what we stand for is the way we manage and operate our business. It is our mission to provide authentic service by making a difference in the lives of the people we touch every day.

We believe that flourishing business and corporate liability for sustainable development go hand in hand. The genuine commitment to care is essential to our common aim to be the most favored in each customer segment that we serve for our Colleagues, our Guests and the Owners.

Blue Lagoon Ocean wishes to perfect in a continuous and a reliable manner so as to further the sustainable development of the Blue Lagoon Group.

Outline our sustainability program

We are committed to following an approach of environmental, social and financial responsibility. By finding leading

Methods to do more with less, we aim to possess sustainability efforts in order to influence positively the communities in which we operate.

Through cooperating with hotel owners, suppliers and guests, we try to reduce the environmental by emphasizing critical areas such as environmental quality, energy, food & beverage, waste and water. Moreover, we are committed to integrating innovative environmental practices and sustainability principles aimed at:

Establishing and reporting on key environmental performance indicators

Developing sustainability

Protecting natural resources

Minimizing waste

Raising environmental awareness among our partners, guests and communities

We recognize that achieving our goals and targets will require time and effort. Nevertheless, we strongly believe that our sustainability efforts meet the interests of both current and future generations.

Who we are engaging with

In order to bring into life what we call “environmental support” we cooperate with companies and organizations, such us “Animal Rescue Kos”, “E.E.E.E.K. KOS”, COMERCIAL UNION “ERMIS” “AFIS”, as well as with the Municipality of Kos, etc.

Key environmental and social issues

The Directors, managers and staff of Blue Lagoon Ocean recognize that our operations have an effect on the local, regional and countywide environment. As a consequence of this, the management are committed to continuous improvements in environmental performance and the prevention of pollution. Environmental regulations, laws and codes of practice will be regarded as setting the minimum standards of environmental performance.

The Hotel is committed to a policy of responsible environmental management, leading to a sustainable use of resources and optimal management of waste.

Blue Lagoon Ocean recognizes and understands its responsibilities and its impact of its operation on the local residents and business community!

We will ensure through our operation to create positive impacts on the both the social and economic level in order for our surroundings to not be negative effected!

In order to monitor and ensure that we will do everything we can to achieve our goals we have identified our primary goals related to our community policy, which are the following:

Community

Support local Market as:

At Blue Lagoon Ocean, we aim to support small and medium businesses and widen the circle of local suppliers.

- All fresh fruits, vegetables, herbs, bread and the bottled water is purchased from local suppliers.

  The 65% of supplies are from Kos & Rhodes Island the rest from Athens.

- The payments to the suppliers are done according to the industry standards or within the credit term negotiated between both partners. We aim to buy local products only and not imported products. Imported products will only be bought when they are not available locally. We purchase our products in bulk and large packaging in order to reduce the impact of litter! We understand the cycle of Economy and we recognize the importance of hiring local staff the will spent their salary back in the local economy! By creating new job opportunities in our new Hotels, we furthermore ensure additional employment for local residents and they do not need to search for employment elsewhere.

Donations and Charities:

Since Blue Lagoon Ocean aims to continuously improve its relationship with the community, we regularly meet and have discussions with the municipality representatives.

In our continuous efforts to help numerous organization or groups, the hotel provides support with the following way:

- ✓ 80 Α.Δ.Τ.Ε.
- ✓ Ε.Ε.Ε.Ε.Κ ΚΟS
- ✓ Support to the local Commercial Union “Ermis”
- ✓ Placed charity box for “Animal Rescue” Kos
- ✓ The hotel collects bottle caps and receives wheelchairs in exchange, which are donated to people and organizations from local community
- ✓ And we clean the beach of our hotel and the nearby territory every year at the beginning and at the end of the season. This cleaning is done correctly and with respect towards the ecological system. We are using special equipment and train our staff in participating as any mistake has an effect on the ecological system.

Local community and the representatives of the municipality are always welcome to raise any concern theymight have.

Employees:

Employee attitudes typically reflect the moral of the company. In areas of customer service and sales,

happy employees are extremely important because they represent the company to the public.

At Blue Lagoon Ocean, we are committed to equal opportunities, fair treatment and respect for human rights, without discrimination, exploitation or harassment.

Trainings

At Blue Lagoon Ocean, we believe in the power of knowledge. We provide entry-level and senior-level trainings for the professionals to grow within the company.

Through the trainings, we have the chance to introduce to our employees general information about the hotel and the group they are working, the organizational chart, hotel policies, procedures and career opportunities in Blue Lagoon Group.

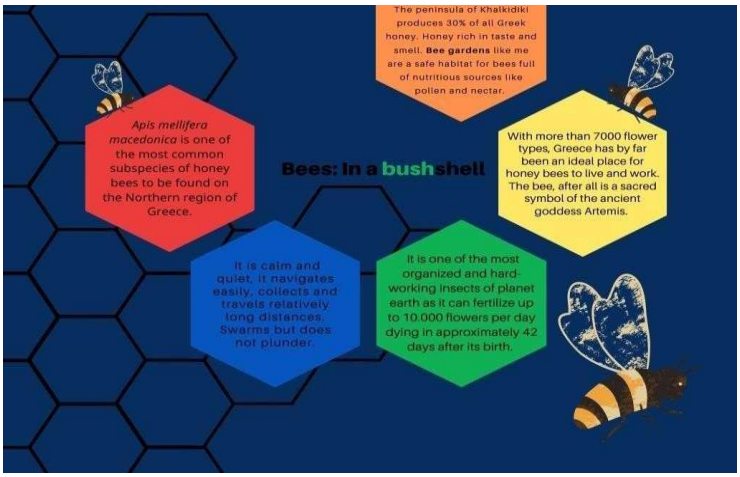
- Induction and Hotel Policies
- Sustainability Training
- Energy and Water Management, Recycling and Waste Management
- Emergency Training
- Fire Drill Training
- First- Aid Training
- Chemical Training and Spill Management
- Health & Safety Training (Hazard)

Environment:

We monitor energy, water and waste indicators annually. The verified 2024–2025 performance comparison and improvement priorities are presented in the updated performance summary below.

The hotel is committed to a policy of responsible environmental management, leading to a sustainable use of resources and optimal management of waste, according which we:

- Use environmentally safe and sustainable energy sources
- Invest in advanced energy and water management systems
- Monitor water consumption and rationalize its use
- Control energy use and monitor its consumption
- Reduce waste at the source and improve waste management
- Implement a recovery, reuse and recycle strategy
- Limit noise pollution
- Organize Beach Clean & Sea Bottom Clean
- Protect the nests of birds
- Cooperate with animal welfare
- Inform guests about the local wildlife and protecting it.



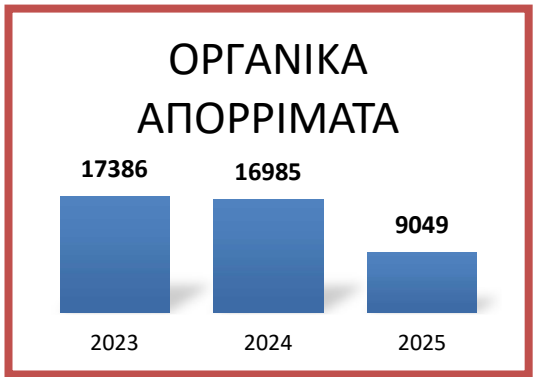
Reduce- Recover- Reuse- Recycle

Practices

- We collect Plastic lids separately
- We try avoid using plastic straws encouraging our guests to be environmentally friendly
- Twice per year we organize Beach CLEAN
- We don't have single use plastic glasses
- Worn towels, sheets and tablecloths are re-used as cleaning cloths and dusters
- Lost and Found item, not requested back by the guests are donated to schools or charitable organizations

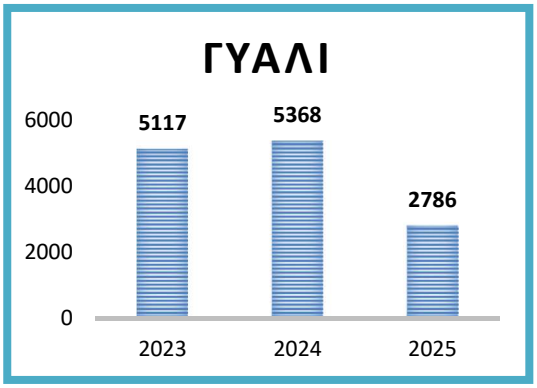
2023 – 2024 – 2025 Waste Records

- Organic

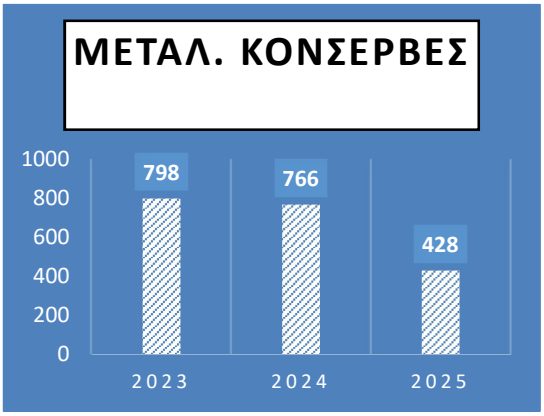


- Historic objective: 5% reduction in organic waste (subject to confirmation of the original baseline).
- Previous reporting records are retained for transparency; updated 2024–2025 EPIT figures and progress are summarised in the current performance section.

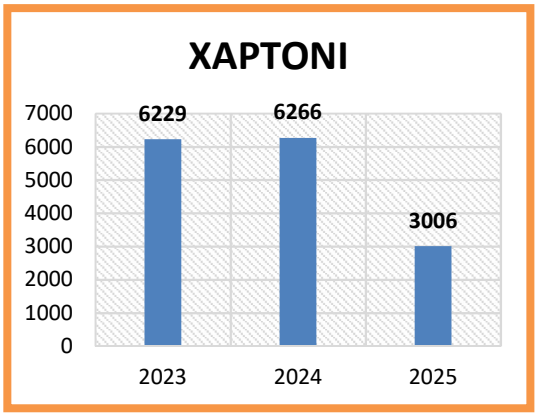
- Glass



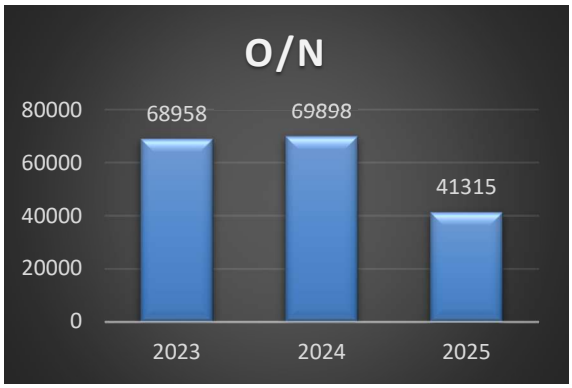
- Metal



- Paper



- Total



- Other recyclable and reusable - 125kg

Targets & Goals – historic targets shown above; updated 2027 objectives appear in the section below.

2026 ANNUAL ENVIRONMENTAL PERFORMANCE UPDATE | Results for 2025 compared with 2024

Energy: 2024 2,101,109.67 kWh (24.84 kWh/guest-night); 2025 2,080,666.58 kWh (26.05 kWh/guest-night). Total energy −0.97%; intensity +4.87%.

TARGET 2023	ACTUAL 2023	DIFF.2023	TARGET 2024	ACTUAL 2024	DIFF.2024	TARGET 2025

Energy-related emissions: 2024 556,512.09 kg CO□e (6.57 kg/guest-night); 2025 566,865.16 kg CO□e (7.09 kg/guest-night). Total emissions +1.86%; intensity +7.91%.

Water: 2024 51,214.00 m³ (0.61 m³/guest-night); 2025 45,389.70 m³ (0.57 m³/guest-night). Total water −11.37%; intensity −6.56%.

Water-related emissions: 2024 7,630.89 kg CO□e; 2025 7,613.17 kg CO□e (−0.23%).

Landfill waste: 2024 30,088 kg; 2025 26,421 kg (−12.19%). Guest-night intensity: 0.365 to 0.330 kg (−9.59%). The waste data refer to landfill disposal, not all waste streams.

Landfill-waste emissions: 2024 10,827.00 kg CO□e; 2025 10,016.54 kg CO□e (−7.49%).

Total reported GHG emissions: 2024 602,177.57 kg CO□e (7.12 kg/guest-night); 2025 584,747.20 kg CO□e (7.32 kg/guest-night). Total −2.89%; intensity +2.81%. Detailed source-category reconciliation should be retained with EPIT records.

2026 initiatives: The hotel reports rainwater collection and recovery of swimming-pool filter backwash water to a dechlorination tank for irrigation, subject to relevant quality controls. A substantial area of irrigated lawn was replaced with synthetic turf to reduce irrigation demand; this is a water-saving measure and is not presented as a biodiversity benefit.

FORWARD-LOOKING SUSTAINABILITY TARGETS — 2027 (baseline: 2026; progress not yet measurable at the 2026 reporting cut-off)

target 1: Reduce electricity use per guest-night by at least 5% in 2027 versus 2026, through preventive maintenance, HVAC efficiency, lighting controls and monthly monitoring.

target 2: Reduce food-waste generation per guest-night by at least 10% in 2027 versus 2026, through buffet planning, stock rotation, staff training and improved measurement. Landfill totals must not be treated as food-waste figures.

biodiversity target: Plant at least 50 suitable Mediterranean plants and shrubs, prioritising locally appropriate native species that support pollinators, by 31/12/2027. Any synthetic turf expansion should avoid ecologically valuable

water target: Reduce freshwater consumption per guest-night by at least 5% in 2027 versus 2026 through leak detection, water-efficient equipment and safe, compliant recovery of rainwater and pool backwash for irrigation.

community action: Prepare and display practical information at Reception highlighting local Kos businesses, producers and traditional products by 2027, and document implementation.

Progress against earlier objectives: Historic target and waste-record charts remain in this report as previously presented. They use differing scopes and reporting periods in places; achievement of individual historical targets should not be asserted without checking the underlying original records. The 2027 targets above are newly established and are not yet completed.

Key actions

Annual energy, water, emissions and waste data are reviewed; improvements and remaining challenges are documented in the updated annual performance section.
The Hotel is committed to a policy of responsible environmental management, leading to a sustainable use of resources and optimal management of waste, according which we:

A

- Use environmentally safe and sustainable energy sources to meet existing operational needs.
- invest in advanced energy and water management systems to assist in conservation energy and natural resources
- monitor water consumption and rationalize its use to save and protect local resources
- Control energy use and monitor its' consumption we save energy and reduce atmospheric pollution.

B

- reduce the impact of consumption on the environment in order to promote the development of local, ecological and social product flows
- continue to conserve resources through efficient and careful planning
- ensure that the suppliers recognize and reduce the environmental impact of their products and processes

C

- reduce waste at the source and improve waste management we implement a recovery and recycling strategy

D

- Limit noise pollution, improve air quality inside buildings and reduce the impact on the local landscape.

Measuring and monitoring performance

Energy Supple and Management and Energy saving initiatives:

The hotel maintains energy-efficiency measures, including the actions below, and monitors their performance against guest-night indicators.

- We insure that all staff are trained to ensure the appropriate energy consumption in all areas of the hotel
- All heavy equipment in kitchens, laundry and pool equipment are grade A efficient
- Usage of low energy light bulbs and led lights in all public areas and guest rooms
- Schedule for lights in some public areas to closed at night after mid night
- Outdoor lighting in gardens are equipped with timers
- Restaurant lighting is equipped with computer timer
- Refrigerators and TV's are low energy consumption

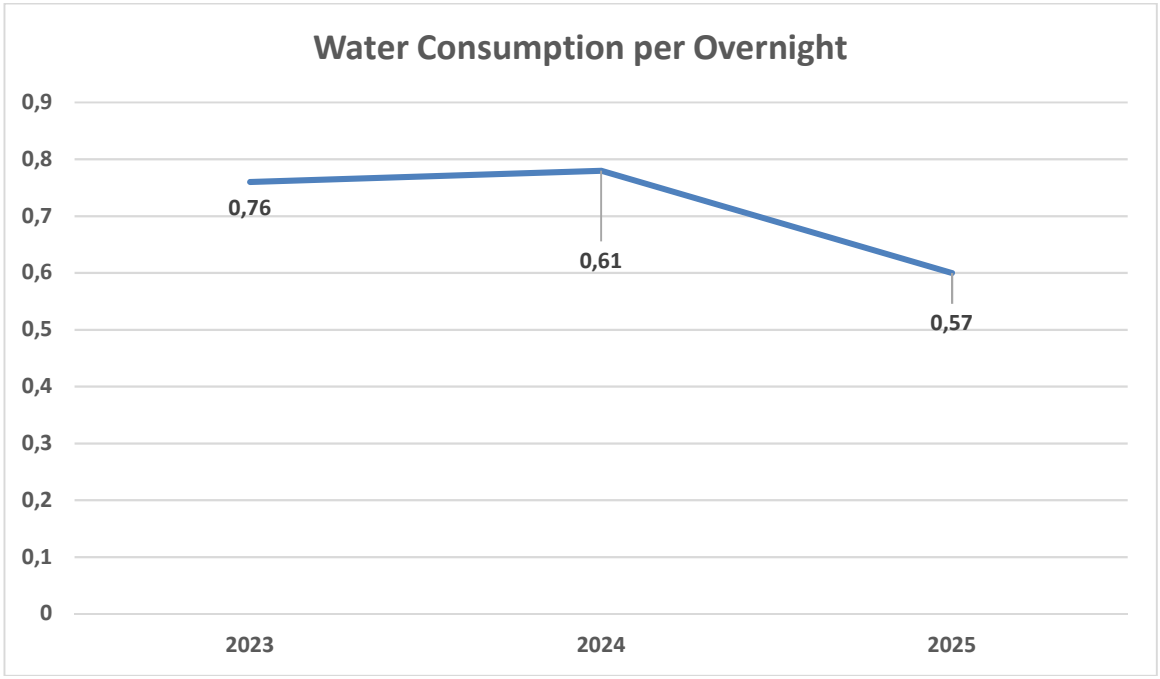
Water Management:

Blue Lagoon Ocean monitors water use and pursues savings without compromising service, hygiene or safety.

Further measures implemented in 2026 are described in the updated annual section.

All accommodation taps, toilets and showers will throttle and as per requirements, such as:

- 4 liters per minute for taps
- 9 liters per minute for showers
- All toilets have been fitted with low flush and or dual flush systems
- All buildings in the resort are supplied with hot water that is produced by solar panels.



Water Consumption in m^3/Guest night **2023** **0.76**	Water Consumption in m^3/Guest night **2024** **0,61**	Water Consumption in m^3/Guest night **2025** **0.57**

Chemical use:

- **Cleaning and treatment chemicals are selected and used with attention to safety, dosing, applicable product requirements and environmental impact; supporting records should be maintained.**
- **The staff of the Blue Lagoon Ocean use recommended measures in Laundry at pot wash by automatic systems.**

Waste Management:

Blue Lagoon Ocean promotes waste prevention, segregation and responsible disposal. Quantitative results and ongoing improvements are summarised below.

- **We managed to reduce significantly the usage of plastic and paper.**
- **We recycle cooking oil, food, plastic, glass, metal, aluminum, battery's waste with help of the municipality of Kos and many other partners**
- **We buy in bulk in order to reduce the amount of solid waste**
- **We encourage guest to use recycle bins**

Summary		
	Total energy (kWh)	2.101.109,67
	Total water consumption (m^3)	51.214,00
	Total solid waste (kg)	30.088,00
	Total Emissions (kg CO_2e)	602.177,57
	Total Net Emissions (kg CO_2e)	602.177,57
	Actual Guest Nights	84.598,00
	Ave. emissions per guest night (kg CO_2e)	7,12
	Ave. emissions per m2 GFA (kg CO_2e)	1,20
	Scope 1 Emissions (kg CO2e)	26.930,76
	Scope 2 Emissions (kg CO2e)	556.512,09
	Scope 3 Emissions (kg CO2e)	18.734,72
	Environmentally hazardous substances (kg)	2.332,00
	Environmentally hazardous substances (l)	394,00
	High emission food purchased (kg)	42.893,98
	High emission food purchased (l)	16.655,00
	Single Use Plastics items purchased	286.842,00

Summary		
	Total energy (kWh)	2.080.666,58
	Total water consumption (m^3)	45.389,70
	Total solid waste (kg)	26.421,00
	Total Emissions (kg CO_2e)	584.747,20
	Total Net Emissions (kg CO_2e)	584.747,20
	Actual Guest Nights	79.884,00
	Ave. emissions per guest night (kg CO_2e)	7,32
	Ave. emissions per m2 GFA (kg CO_2e)	2,00
	Scope 1 Emissions (kg CO2e)	24.634,85
	Scope 2 Emissions (kg CO2e)	542.230,32
	Scope 3 Emissions (kg CO2e)	17.882,04
	Environmentally hazardous substances (kg)	2.792,00
	Environmentally hazardous substances (l)	3.731,00
	High emission food purchased (kg)	37.971,84
	High emission food purchased (l)	13.599,52
	Single Use Plastics items purchased	256.386,00

Seasonal Progress

We are engaging guests in order to influence consumer behavior towards environmentally sustainable choices. Even though this is difficult in the context of the luxury market, Blue Lagoon Ocean has made more use of in-room messaging.

Printing materials reduced to minimum

- Information provided via TV (in rooms) and through the hotel's application (EXCLUSIVI) available on guests to download on their mobile phones.
- All the information that was printed is now available in the hotel application.
- All menus (F&B and SPA) available in the application.
- F&B orders made via the application from any point of the hotel

Environment

Additionally, we completed projects that assisted in a more sustainable business environment and, at the same time, increased guest satisfaction.

- Minimum LPG reduce of seasonal consumption through extra monitoring
- Application of CLO_2 for domestic water resulted reduced energy consumption and its environmental friendly compared to CL.
- Implementation of automated disinfection CLO_2 system resulted better water outcome quality
- Achieved reduce of Pools Chems consumption

Community

- Provide food for animals to farmers
- We offer a day pass to people with reduced mobility
- We seek to manage our water use responsibly and to minimise pressure on the local water supply, particularly during seasonal demand peaks.
- We have contributed to the decision and completion of the aesthetic improvement of the area, with lighting, sidewalk, bike path and in the future we expect expansion of sidewalk on a coastal road

Staff

- More variety of food in staff canteen
- Continuous trainings provided to staff
- Opportunities for career development

Future targets and objectives

- We train our company members and managers on the company's policies and anti-corruption
- We are supervising our key values and ethical standards in everything we do in order to provide our employees with the fair work environment they deserve
- We hire, retain and motivate the next generation who can help our company to flourish so that they also develop and evaluate their performance regularly
- We educate and inspire employees and guests to conserve and preserve our planet
- Further reduce energy, water, gas and waste consumption

- time schedule program for public spaces
- Process start for Blue Flag Award

Community

- Organize donations in the end of the season
- Sponsor local events
- Further strengthen our relations with educational institutes by promoting the hospitality industry and careers in tourism enterprises
- Introduction and information of local aromatic plants for guest
- Information about the mythology of olive trees in Greece

Project – Save the strays

On Monday, August 18, we organized a bazaar in our hotel with the aim of raising money for the local stray animal protection organization.

People

General

- Maintain the number of local employees & aim for a 5% further increase
- Create more positions for student placements/internships
- Keep and continuously improve the high standards of working conditions

Benefits

- Provide free transportation (to and from work) to employees from the surrounding areas
- Provide discount coupons to staff members, when shopping from local shops/cafes/restaurants

Learning & Development

- Organize first aid training
- English language seminars for housekeeping employees
- Organize a coordinated crisis/emergency drill (fire, earthquake etc.) with the Fire Department

Wellbeing

- Assist employees in their efforts to quit smoking
- Add even more healthy meal options in staff canteen

Facilities & Events

- Furnish the external staff break area
- Organize staff party
- Organize a charity walk event
- Organize a tree planting event

PUBLIC SUSTAINABILITY COMMITMENTS

Climate: We commit to reducing greenhouse-gas emissions by improving energy efficiency, water efficiency, waste prevention and lower-impact purchasing.

Biodiversity: We commit to protecting local habitats and wildlife, reducing pollution and supporting responsible landscaping and visitor behaviour.

Human rights: We commit to respecting human rights, fair employment and equal opportunities, and preventing discrimination, harassment, exploitation and abuse.

Child protection: We commit to preventing child abuse and exploitation, training relevant personnel and reporting suspected incidents through appropriate safeguarding channels.

Policies

Blue Lagoon Group recognizes and understands its responsibilities and its impact of its operation on the local residents and business community. We will ensure through our operation to create positive impacts on the both the social and economic level in order for our surroundings to not be negative effected.

Environmental Policy Statement

The Directors, managers and staff of Blue Lagoon Group recognize that our operations have an effect on the local, regional and countrywide environment. As a consequence of this, the management of each of our BLG Hotels are committed to continuous improvements in environmental performance and the prevention of pollution. Environmental regulations, laws and codes of practice will be regarded as setting the minimum standards of environmental performance.

Children Protection Policy Statement

One of Blue Lagoon Ocean's fundamental commitments is to protect children from abuse, exploitation and neglect. Staff are expected to recognise and report any suspected safeguarding incidents through established procedures and to the competent authorities where required.

Community Policy Statement

In order to monitor and ensure that we will do everything we can to achieve our goals we have identified our primary goals related to our community policy, such as Promotion of Responsible Tourism in the Area, Purchase as many products as possible from our local suppliers, Employee local staff, Donations and Charities.

Policy Statement for Human Resource Management

It is one of the main goals of the ownership and management of Blue Lagoon Group to ensure the welfare and best working conditions possible for their staff. We declare that we respect and follow the Human Rights of our staff according to Greek law and European Union Regulation.

Quality Assurance Policy Statement

The Blue Lagoon Group is committed to constantly improve its facilities and services, in order to achieve the maximum quality satisfaction by our guests and partners.

Health & Safety Policy Statement

The management of the company is committed to Prevent of injury and ill health of anyone at the premises of the company.

Comply with all relevant environmental legislation and regulations and with other requirements to which the hotel subscribes. Provide all the necessary resources in order to have the best implementation of this policy. Continual improvement in H&S management and performance. Maintain the high standards of food safety and hygiene, including the full implementation of HACCP system.

Our sustainability commitments and annual performance report are intended to be accessible to guests and other stakeholders through the hotel's public communication channels, following management approval and publication.

ΕΚΚΛΗΣΙΑΣΤΙΚΟΝ ΣΥΜΒΟΥΛΙΟΝ

Αθήνα, 04.08.2025

Προς
Τον αξιότιμο κ. Νικόλαο Ζαχαριά
Πρόεδρο και Διευθύνοντα Σύμβουλο της εταιρείας "Blue Lagoon Annex ΑΕ"

Λίαν αγαπητέ μας κύριε Ζαχαριά,

Με αισθήματα ευγνωμοσύνης και συγκινήσεως επικοινωνώ μαζί σας εκ μέρους του Εκκλησιαστικού Συμβουλίου του Ιστορικού Ιερού Ναού Μεταμορφώσεως του Σωτήρος, καθώς και προσωπικώς, ως Πρόεδρος του Εκκλησιαστικού Συμβουλίου, δια να σας εκφράσω τις θερμότερες ευχαριστίες μας για την ευγενική και γενναιόδωρη προσφορά σας, η οποία συνίσταται εις την δωρεά ξυλόγλυπτου προσκυνηταρίου του Αγίου Γεωργίου, συνολικής αξίας τριών χιλιάδων ευρώ (3.000€).

Η πράξη σας αυτή δεν είναι απλώς μια υλική προσφορά, αλλά μαρτυρία ζώσης πίστεως και σας καθιστά πραγματικόν «οικονόμον χαρισμάτων Θεού» (Α' Πέτρου 4,10), δηλαδή διαχειριστήν της αγάπης του Θεού προς τον πάσχοντα άνθρωπο.

Σας ευχαριστούμε εγκάρδια για το παράδειγμα αγάπης και κοινωνικής ευαισθησίας που δίδετε εις εποχήν κατά την οποία κυριαρχεί συχνά η αδιαφορία και ο ατομισμός. Η παρουσία ανθρώπων όπως Εσείς, μας ενδυναμώνει, μας συγκινεί και μας γεμίζει ελπίδα.

Εκ μέρους όλων των μελών του Εκκλησιαστικού Συμβουλίου του Ιερού Ναού, παρακαλώ δεχθείτε την ευγνωμοσύνη και τις ευχές μας. Ο Δοτήρ παντός αγαθού, Κύριος και Θεός ημών, είθε να Σας χαρίζει υγεία, έτη πολλά, πνευματική χαρά και να ανταποδώσει εκατονταπλασίονα τας δωρεάς Σας.

Επί δε τούτοις διατελώ

Αρχιμ. Ισίδωρος Κάτσος
Πρόεδρος του Εκκλησιαστικού Συμβουλίου
Του Ιερού Ιστορικού Ναού Μεταμορφώσεως Σωτήρος του Κοττάκη - Πλάκας

With this report we invite our stakeholders, our staff, our guests and suppliers, to keep on supporting our actions in order to protect the environment and biodiversity.

If you would like a sustainability report in another language, please contact the reception desk or send an email to info@bluelagoonocean.gr.
